(Ctrl + J (copy)

Same step (Horizontal)  
(Effect)

## \* Types of Gradient

1. Linear gradient (line) -

Shades from the starting point  
the ending point in a straight

2. Radial gradient (Pattern) -

Shades from the starting point  
to ending point in a circle

3. Angle gradient -

Shades in a counterclockwise  
sweep around the starting point

4. Reflected gradient of the starting Point -  
shade using symmetric linear  
gradient on either side

5. Diamond gradient:-

(The ending Point defines once  
corner of the diamond)  
shade from the starting Point outward  
in a diamond Pattern
